

YASH TUPKAR

+91-7898297769 | yashtupkar6@gmail.com | LinkedIn | GitHub | Portfolio | Bhopal, Madhya Pradesh

Profile

Results-driven **Full Stack Developer** with 11+ months of professional experience leading a startup tech team and shipping production-grade web applications using the **MERN stack**. Proven ability to own a product end-to-end — from architecture and API design to cloud deployment on AWS. Experienced with real-time systems, AI integrations, payment gateways, and Agile delivery. Passionate about writing clean, scalable code and building tools that solve real problems.

Work Experience

Software Engineer

Devplex Technologies Pvt. Ltd.

Feb 2025 – Jan 2026

Bhopal, MP

- Led end-to-end full stack development of **Devplex AI**, a SaaS platform serving **100+ active users**
- Architected the React.js frontend and Node.js/Express backend, ensuring scalability and clean code standards
- Managed the tech team — conducted weekly code reviews, sprint planning, and made key technical decisions
- Integrated GenAI (Claude API) to power the core AI website generation feature of the product
- Deployed and maintained the application on **AWS**, ensuring reliable uptime and fast feature rollouts
- Collaborated with co-founders on product roadmap, feature prioritization, and user feedback cycles

Projects

EVSync — EV Charging Ecosystem *MERN, JWT, Payment Gateway, Leaflet, OSRM, ESP32 IoT* [Code] [Live] **2025**

- Built full-stack EV station discovery + route planning with interactive Leaflet maps and OSRM navigation
- Developed Express/MongoDB backend with station/user APIs, admin controls, and booking-ready architecture
- Integrated OSRM routing, Nominatim place suggestions, simulated turn-by-turn navigation, and map styles for EV trip planning.
- Added real-time charger socket telemetry using ESP32, ACS712, ZMPT101B, 1-channel relay, and SSD1306 OLED display

PlaceMateAI — AI Placement Prep Platform *React, Node.js, MongoDB, OpenRouter, AWS Polly* [Code] [Live] **2026**

- Developed a full-stack AI interview preparation platform with mock interviews, group discussions, and coding rounds
- Integrated voice AI pipeline using Web Speech API (STT), OpenRouter (Gemini), and AWS Polly for real-time interaction
- Built ATS resume analyzer and LinkedIn optimization tools with detailed performance analytics
- Implemented subscription system with credits, payments, and secure authentication using Clerk

Devplex AI — AI Website Builder *React, Node.js, MongoDB, GenAI, AWS* [Code] [Live] **2025**

- Built an AI-powered SaaS platform that generates complete websites from user text prompts using the Claude API
- Implemented role-based access control, dynamic page creation, and a Tailwind-based responsive UI
- Designed and optimized REST APIs and MongoDB queries to handle real user traffic at scale

Technical Skills

Languages: JavaScript (ES6+), C, C++

Backend: Node.js, Express.js, REST APIs, JWT Auth, Socket.io

Cloud & Tools: AWS, Git, GitHub, WebRTC, Payment Gateway

Frontend: React.js, Redux, Tailwind CSS, HTML5, CSS3

Database: MongoDB, NoSQL schema design

Education

Sagar Institute of Science Technology and Research, Bhopal

B.Tech in Computer Science and Engineering — CGPA: 7.73/10

2022 – 2026

Bhopal, MP

Govt. Excellence Higher Secondary School Sausar

Class XII — 68.8%

2021 – 2022

Sausar, MP

Govt. Excellence Higher Secondary School Sausar

Class X — 83.0%

2019 – 2020

Sausar, MP

Achievements & Recognition

- Winner** — SISTec Innovation Hackathon 2025 — built and pitched a live AI product to a panel of industry judges *Nov 2025*
- Winner** — National Science Day Project Expo, SISTec-R — recognized for Innovative Healthcare Software *Feb 2025*
